

Accelerated Behavior Change

The 22nd ABC Training begins

November 12th, 2010

5228 Blossom Street
Houston, TX 77007

The ABC Training is a life changing experience in personal growth and discovery of the authentic self.

The men and women who accept the challenges of this work are rewarded with a renewed sense of purpose and passion in life.

You will leave the training with newfound energy and excitement and stronger connection to yourself and others.

"Participants experience increasing levels of trust and safety. It is this deep connection between participants that allows exploration of the blocks that keep us from living our true nature, our authentic personality, and our temperament that utilizes energy in the most efficient and effective way."

"Participants can expect greater levels of happiness, higher levels of self esteem and confidence, increased spontaneity, a bolder approach to life, enriched relationships, a sense of purpose in life, and an alignment with your truest nature." ~ **Robert Andrews, ABC Director and Training Leader**
